

Vieira de Leiria, 29th August 2017.

To our Valued Customers:

We would like to confirm that all steels produced by Bollinghaus Steel, S.A don't contain increased levels of radioactivity.

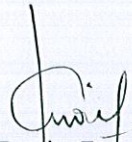

All our raw material is certified as free of radioactivity, being subject of strict radioactivity controls which eventually detect any possible radioactive contamination.

Every smelt is finally checked to ascertain the freedom of radioactive contamination.

In addition, no radioactive contamination (including Co-60) is expected to be found on any product supplied by Bollinghaus Steel, S.A.

Please do not hesitate to contact us if you have any queries regarding this letter.

Best Regards,

João Paulo Fernandes
Quality & HSE Manager
